THAT INTERMINABLE CHINESE INDEMNITY.

Complications Arise Which May Necessitate Settlement of the Question at The Hague.

REPUBLIC SPECIAL

Washington, Oct. 26.—Settlement of the Chinese indemnity question by the Hague urt of Arbitration, in accordance with the suggestion long advocated by the Uni-ted States, may yet be necesary.

With the signature of the Pekin proto-

col, the West believed that it had determined the vexatious questions arising out of the Chinese revolt. That protocol pro-vided that China should issue bonds, valued at 450,000,000 taels, which should be distributed among the Powers in payment of their respective claims for indemnity. Special Commissioner Rockhill has now reported to the State Department the fact that the aggregate of the claims of all governments is 462,500,000 taels.

In the interest of a prompt and satisfactory settlement, the authorities here are becoming impressed with the advisability of again putting forth the proposition that the claims be referred to The Hague Court of Arbitration for settlement.

LEE IS MASTER OF HYPNOTISM. Distinguished Mesmerist Will Appear at the Grand.

at the Grand.

Few masters of the strange power can demonstrate the science of hypnotism so interestingly as Professor Lee, who will appear with his company in St. Louis next Thursday afternoon at the Grand Operahouse. With all seriousness the useful features of the art are shown, and occasionally a bit of fun is thrown in to make a performance that will be amusting as well as instructive.

Mr. Lee calls volunteers from the auclence and puts well-known persons under his hypnotic influence. One of the features is an imaginary baseball contest between two hypnotized mines, which is very comical. The most wonderful feat of the professor is the breaking of a 400-pound stone on the breast of a rigid subject to sleep, and in a cataleptic state the man remains until the hypnotist is ready to arouse him. Usually these periods extend over several days, and the subject is exposed during the interim to public view.

Everywhere that Professor Lee and his company have been the newspapers have spoken highly of them and their work. A Sacramento, Cal., paper says of him:

"There have been other hypnotists and mesmerists here before, but Lee is the superior of them all without a doubt. His methods are not so theatrical as those of his predecessors, for he looks upon his work in a more serious way, and strives not to make his subjects appear ridiculous in the eyes of the spectators."

Other papers speak in the same complimentary way of the artist, and it is very evident that he is a master in his art.

HISSED SPONSOR OF **NEW TORPEDO BOAT.**

Mrs. Todd Failed to Break the Bottle of Champagne in Three Attempts-Recently Married.

REPUBLIC SPECIAL. Philadelphia, Pa., Oct. 26.-The sponsor for the torpedo-boat Chauncey, Mrs. Mae Chauncey Todd, falled to break the bottle of champagne over the vessel's bow as she slid from the ways at Neafle & Levy's shipyard this noon. Mrs. Todd's failure was greeted with hisses from the workmen of the yard, as she swung the bottle for the

third time upon the bow unsuccessfully. The incident, it is feared, is likely to be interpreted generally among marine folks as marking the hoodoo of the new destroyer, owing to the fact that a married woman was allowed to stand as her sponsor.

Mrs. Todd's marriage, which occurred a months ago, had not been announced until last evening, and Secretary Long then decided against any change in the plans for to-day's launching, despite the fact that the Navy has always followed the unwritten

law of having new vessels named by un-married young women.

The girl, granddaughter of Commodore Isaac Chauncey, one of the famous naval-men in the War of 1812, after whom the boat was named, decided to marry a Mr. Todd, after being chosen as the Chauncey's

sporsor. The news of the union is made public now by the family because of the marine event, as the wedding is said to have taken place without the knowledge of the young woman's parents.

Japanese Statesman Expresses Appreciation of His Reception.

New York, Oct. 26.—Marquis Ito, formerly Prime Minister of Japan, salled for Boulogne on the steamer Ryndan to-day. The Marquis said at the steamship pier:

"I must express my thanks to you Americans for the kindness and cordiality with which I have been received. My reception was only equaled by the courtesy extended to me on my last visit here. I am deeply grateful for the degree which was bestowed upon me by Yale University, although I hardly see how I deserve it, being but poorly versed in the science.

"I shall leave the Ryndam at Boulogne and proceed to Paris, where, in all probability, I shall spend a part of the winter. I hope to go to Japan by the latter part of the year, or early next year. My plans are rather indefinite as yet."

The Marquis would not discuss the affairs of Japan; he had nothing to my regarding the change of Government, nor would he discuss politics at all. Appreciation of His Reception.
